

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

- 1 (original): A pharmaceutical composition for administration as an aerosol, which comprises a cannabinoid, a propellant and an effective amount of a cough suppressant.
- 2 (original): A composition as claimed in Claim 1, which is a solution.
- 3 (currently amended): A composition as claimed in Claim 1 ~~or Claim 2~~, in which the weight ratio of cough suppressant to cannabinoid in the composition is in the range of from 2:1 to 25:1.
- 4 (original): A composition as claimed in Claim 3, in which the weight ratio of cough suppressant to cannabinoid in the composition is in the range of from 2.5:1 to 15:1.
- 5 (original): A composition as claimed in Claim 4, in which the weight ratio of cough suppressant to cannabinoid in the composition is in the range of from 3:1 to 10:1.
- 6 (currently amended): A composition as claimed in Claim ~~any one of Claims 1 to 5~~, in which the cough suppressant is a medium chain triglyceride or propylene glycol diester.

- 6 -

7 (currently amended): A composition as claimed in Claim
~~any one of Claims 1 to 6~~, in which the propellant is 1,1,1,2-tetrafluoroethane.

8 (currently amended): A composition as claimed in Claim
~~any one of Claims 1 to 7~~, in which the cannabinoid is delta-8-THC.

9 (currently amended): A composition as claimed in Claim
~~any one of Claims 1 to 8~~, which further comprises ethanol.

10 (original): A composition as claimed in Claim 9, which comprises from 1 to 15% by weight of ethanol.

11 (original): A composition as claimed in Claim 10, which comprises from 3 to 5% by weight of ethanol.

12 (currently amended): A composition as claimed in Claim
~~any one of Claims 1 to 11~~, which further comprises an essential oil or a major component thereof.

13 (original): A composition as claimed in Claim 12, in which the essential oil or a major component thereof is menthol.

14 (original): A composition as claimed in Claim 13, which comprises from 0.02 to 0.1% by weight of menthol.

15 (currently amended): A metered dose dispenser, which contains a pharmaceutical composition as claimed in Claim
~~any one of Claims 1 to 14~~.

16 (currently amended): A metered dose dispenser as claimed in Claim 15 ~~16~~, which is a metered dose inhaler.

17 (currently amended): A metered dose dispenser as claimed in ~~Claim 15 or~~ Claim 16, which is adapted to provide a unit dose containing from 0.1 to 0.2 mg of cannabinoid.

18 (cancelled):

19 (original): A method of administering an aerosol composition comprising a cannabinoid and a propellant to a patient, which comprises administering the cannabinoid and propellant with an effective amount of a cough suppressant.

20 (new): A pharmaceutical composition for administration as an aerosol, which comprises a cannabinoid, a propellant and an amount of a medium chain triglyceride or propylene glycol diester effective as a cough suppressant.

21 (new): A composition as claimed in Claim 20, in which the cannabinoid is delta-8-THC.

22 (new): A composition as claimed in Claim 21, which comprises from 1 to 15% by weight of ethanol.

23 (new): A composition as claimed in Claim 22, which comprises from 3 to 5% by weight of ethanol.

24 (new): A composition as claimed in Claim 22, which further comprises an essential oil or a major component thereof.

25 (new): A composition as claimed in Claim 23, which further comprises from 0.02 to 0.1% by weight of menthol.

- 8 -

26 (new): A method as claimed in Claim 19, in which the cough suppressant is a medium chain triglyceride or propylene glycol diester.

27 (new): A method as claimed in Claim 26, in which the cannabinoid is delta-8-THC.
